## **STEEL DROP-BARS - Removable Door Strengthening.**

**Security Drop Bar** is the most effective ways of preventing a door from being forced open from the opposite side.

Custom built to suit the individual door and jamb it is absolutely tamper proof.

In the case of fire exits the Security Drop Bar is not lockable but just needs to be knocked upwards out of the clamps that the bar rests in.

- Great impact strength
- Corrosion resistant finish
- Insurance approved
- Tamper proof
- Fully Custom built
- All steel construction
- Galvanise with Optional Powder coat
