### Clear Polycarbonate Slats - INVISI-GUARD

Do you want to enhance your shop counter security without compromising appearance? Xpanda's innovative Invisi-Guard offers a game-changing solution. Invisi-Guard features virtually unbreakable 10mm thick x 80mm wide clear polycarbonate slats within a sleek steel frame. This creates a powerful, yet much less visible barrier that deters intruders while maintaining a clear, unobstructed view for both customers and staff.

Here's why Invisi-Guard is the perfect choice for your windows or shop counters:

#### Technical Specifications:

- Slats: 10mm thick x 80mm wide clear polycarb.
- Steel end and intermediate supports. 25mm x 25mm steel every 800-1200mm
- Counter surround frame: 50mm x 25mm steel
- Powder coating available in all Dulux powder coat colours

#### Polycarbonate Properties:

- High abrasive resistance
- Impact resistant- virtually unbreakable
- Resistant to vandalism
- High chemical resistance
- Around 94% light transmission average
- Partially Blocks out UV

### Hidden strength..

Concealed fixings ensure vulnerable points are protected, with triple-fixed slat-to-steel joints on the back, away from view.

Invisi-Guard's polycarbonate slats are incredibly strong, resisting forceful attacks and offering protection comparable to steel bars.

### Enhanced aesthetics & visuals..

Crystal-Clear Visibility The transparent design allows for maximum light penetration, creating an open and inviting atmosphere for customers. Now there's no need for bulky steel bars! Invisi-Guard enhances your store's appearance, creating a welcoming and modern look.

### Tailored to your style..

Any steel parts can be powder coated in a range of Dulux colors to perfectly match your shop's décor.

### Minimal disruption..

Invisi-Guard is designed for simple and efficient installation, minimizing disruption to your business operations.

Now you can upgrade your security without compromising on style.

Concealed steel rivets are not accessible from outside. This is a junction between Anti-Jump system on the countertop and the storefront window protection ►

### *Unhindered customer interaction..*

The crystal-clear slat design enhances both acoustic and visual interaction, creating a more engaging shopping experience for your customers. With Invisi-Guard, you can prioritize the protection of your staff without compromising on customer engagement.

### *Space for your customers..*

The innovative anti-jump system provides ample space for your customers to comfortably place their items, while also ensuring that your staff have the room they need to work efficiently. Its subtle design seamlessly integrates into the shopping environment, allowing for a smooth and unobtrusive experience that enhances both customer convenience and staff productivity.

### *Buy yourself time..*

The Invisi-Guard anti-jump system is designed with one goal in mind: to provide your staff with critical time to ensure their safety.

While no system can guarantee total prevention, this solution is engineered to delay unauthorized access, creating an essential buffer for response.
