Custom Outdoor Security Cages: Built to Protect Your Assets

Xpanda Security understands that commercial security is based on client requirements. Therefore great care is taken to produce Custom Outdoor Security Cages to close off and protect your equipment and private spaces from theft and vandalism. Products are manufactured to compliment and blend in with the surrounding environment without impacting negatively, but at the same time providing the security that you require.

These robust, hot-dip galvanized Heavy-Duty Custom Outdoor Security Cages are custom-designed in every instance, and built to provide unparalleled protection for your valuable assets in any outdoor environment*

Specifically crafted to meet your unique security needs, this cage offers a formidable barrier against things like copper theft and unauthorized access.

Constructed with high-strength 16mm steel bars (or mesh if requested) and a durable 50 x 50mm steel frame, they are built to withstand the elements and deter even the most determined intruders.

Ideal for Protecting:

- HVAC Units
- Refrigeration
- Generators
- Tools and Supplies
- Sensitive Materials
- Outdoor Storage

Specifications:

16mm Steel Bars,
50 x 50mm Steel frame
Hot-Dip Galvanized,
Powder coat optional.
Bar Spacing: 100mm
centers

Heavy Duty Construction.

Manufactured from 16mm steel bars and a 50 x 50mm steel frame, ensuring maximum strength and durability.

Hot-Dip Galvanised.

Provides superior protection against rust and corrosion, extending the lifespan of the cage in harsh outdoor conditions.

Deadlock Security.

Larger cages with a door feature a double deadlock by default, with additional locking options available to meet specific security requirements.

Custom Made.

Each cage is custom designed and assembled on-site, ensuring a perfect fit for your specific needs.

Secure Ground Anchoring.

Bolted directly to an existing or prepared concrete slab, providing a secure foundation and preventing the cage from being moved or tampered with.

Steel Bars or Mesh.

100mm center spacing offers excellent visibility while maintaining security, allowing for easy monitoring of the contents.

Weather Resistant.

Designed to withstand all outdoor conditions excluding marine unless special coating is applied.

↑ Featuring a steel bar door, with double deadlocks. Locks can be according to customer requirement, like Maglock or Electronic.
